CHAMPS BACK HOME AND WILL PLAY THOSE SPEEDY HIGHLANDERS ON THE LOCALLINKS TODAY

ALL JIMMY COLLINS ASKS IS A SQUARE DEAL

BY JIMMY COLLINS.

A square deal is all the Champs ask, and they are sure they will take a majority of the five games on the card. I regard the coming series with New York as the most important of the year. I expect our boys will pull off three if not four of the battles. If Griffith's men think we are afraid of them I believe we can make them change their opinion in the next three days. It has been a hard campaign for both clubs for a fortnight. The New Yorks have won out many of their games by one or two runs, while we have frequently beaten our opponents badly. I believe our boys are bettering better now than they have for some time past. Stall has been hitting the ball particularly well lately, and seems to have struck his old gait. Sedgwick, too, has been hitting hard, and I may say the same of Parent. Leaving the pitchers out of it, our team is now in the finest possible condition. One or two of the men who were a bit over weight, and therefore slow in getting over the ground, are now about where they should be. In fielding I think we have it on the New Yorks and they are not hitting my batter, if as well as we are. As for pitchers, Cy Young is in grand form, as shown in his remarkable game pitched against the Athletics on Saturday. Only the hardest kind of luck lost us that game. Gibson has been pitching very consistent ball in every game since he got bopped in St. Louis a month ago. Dineen is in fine shape, though he slipped a bit on Monday. None of us has any worry about Bill Tamm, as a run will, I think, be O.K. for the series. The New Yorks have their work cut out for them, too, one must remember. They will have to do their best at all stages. It will be a great series, and our side goes into it with great confidence.

GRIFFITH SAYS HE WILL WIN MAJORITY OF GAMES

BY CLARKE GRIFFITH.

We play five games in three days with the champion Boston, and I count on winning the majority. We have had the best of the Boston in every series we have played there this season, and I see no reason why we cannot continue our successes. My team is in the best condition it has been in this year, and as the Boston are no stronger I cannot see where they have anything on us. The series is one of the most important of the year. If we can win the old game, we can get the lead; if they are that fortunate, they can get it; but I have noticed all through the season that my boys are always very good when they have a fight on hand. We have been to Boston at several critical times before this year, and we have never failed to come back with a hold on our end. I have no weakness on my team, and every man can be depended on. While the series will not possibly decide the championship, still I consider it a crucial test, and go to meet our closest rivals with confidence and determination. I am sure of Chisholm, for he has been almost invariably successful against the Champions, and although he pitched yesterday's game, I shall try to so arrange my plans that he will pitch at least two games out of the five in the series coming. I have Garvin, who I am sure will make a good showing. I cannot see where the Boston have us bested at all on pitchers. I look to see us leave Boston with flying colors. And if we do get the lead on the Champions, we will give them a chase to catch us again.

Despite the Unfavorable Weather Fans Turn Out in Large Numbers to See the First of the Big Series at the Huntington Avenue Grounds.

Continued from First Page.

For the occasion proved an alluring magnet, in spite of the gloomy day, not only to the local fans, but the thousands of those that always attend the functions of every character, and they could not afford to miss the stellar attraction. It was with a feeling of anxiety that the thousands of fans kept time on the street sides that portended plenty of sprinkles some time during the day. Many stole a few minutes to stare at the weather bureau and kept the Champs busy, and the fans were not even the least bit annoyed by the rain. The rain has become so much a part of the season that it is not even mentioned in the weather bureau, but the fans are not so easily satisfied. TOM SHAW SAYS:
The Champs are a great combination. Collins has a fast aggregation of players, but they will play good ball to hope to win the pennant this year.

HE WON'T FEAZE THE CHAMPS.
Frank Farrell, owner of the New York American League team, is here with his plan. This is the first time that Farrell has come to this city with the Highlanders since they were admitted to the league. FARRELL PRAISES CLARKE GRIFFITH

CARL LOTHROP SAYS:
It's a great race. It certainly is the most interesting situation in baseball history that I remember. These games with New York are the most critical of the season.

CLARKE GRIFFITH SAYS:
I have followed it from the time I was first able to catch a ball and consider that now I have a pretty fair knowledge of it. When a boy is always around where a game was taking place. Yes, I think it was, without doubt, my favorite pastime. I am sorry that I will not be able to take in the coming series between the New Yorks and the local boys, for they will, undoubtedly, be great. These New Yorkers can play a great game and will be likely to force our team to their limit. If I want to go to St. Louis I should certainly take in some of the games of the coming series. I wish the Boston nine the best of luck, and hope when I return they will have the pennant clinched for good, but if they are beaten by the New Yorks it will be no disgrace to me. I shall follow the accounts of the games closely while away.

CLARKE GRIFFITH, THE HIGHLANDER MANAGER

Now we have him! Well, we don't know about that, either. Clarke Griffith is a pretty foxy ball player, who doesn't get caught in any cage. You have to draw him out, and then he is apt to sketch your finish. Isn't that touching? Griffith and his merry band of diamond warriors are in town for a series of five games with the Champs. Clarke says his clan of Highlanders are glad to strike the Hub, as they are expecting to receive the pennant slip from the Boston. Griffith, snatched by a BOSTON AMERICAN camera man just as he had made a vicious lunge at the sphere.

GIANTS SIGN NEAL.
The New Yorks have already paid \$25,000 for Neal, and will pay an additional \$25,000 if Neal makes good. It is said that Neal has been doing a fine work as a member of the Giants' League.

GOV. BATES HOPES CHAMPS WILL AGAIN CAPTURE THE PENNANT

BY JOHN L. BATES, GOVERNOR OF MASSACHUSETTS.

I predict Boston to win the pennant? Well, I would hardly want to make a prediction. I hope, however, that Captain Jimmy's team will again carry off the honors, but in New York they have an opponent who will make them fight every inch of ground. I attend the games whenever I get time to, and enjoy them very much. I have been to a number of the games at the Huntington Avenue grounds this season and I always spend an enjoyable afternoon when there. I think that the American League race is about the closest that I remember, with every club fighting for all that is in them. Do I understand the game? Well, I have followed it from the time I was first able to catch a ball and consider that now I have a pretty fair knowledge of it. When a boy is always around where a game was taking place. Yes, I think it was, without doubt, my favorite pastime. Boston returned to the good old Irish local feeling, but the heavier would come back to their native Irish in first place. They are only one point ahead, but you know that a lead is better than none as they'd say in a proverb. Out of nearly all the games played with the Boston in Boston, and vice versa. This fact alone shows that the race won't be in this series, and that the Boston will lead the race out of their rivals from across the field.

It seems as though the race in the American League is being between the Boston and New York teams, with the Chicago, Philadelphia, Chicago, or Cleveland may do the dark horse act, and come into the race on the final day of the season. The Boston and New York are up against the Athletics, who are looking for the title out of their rivals from across the field.

And we'll keep the lead. Another leader and big both games, before they can rest a little easier. There were no games played in the American League, owing to the illness of Jigger Hefner. However, today, the teams hope to get after each other and make some of our another's ratings. It will be a case of down and probably out, for some of the teams that get out of the series. Of course, we expect our Champs to be in the lead.

BILLY HOGARTY SAYS:
The Champs will land the flag again, but they've got to work as they never did before. These New Yorkers are a bad lot to fool with.

Up, and tries these husky baseball batters from Boston. Some of the fans have been staying awake nights trying to figure out how the Boston can win. After an anxious week of looking up figures, the crowd hope out that the Boston may, unless some other team, the Highlanders, for Boston, take into their hands to catch the city weather. When his team went Jimmy Collins, the Highlanders.

not place, and may not. Conservatively before predict that the Boston and New York will have about even in the present race. The Athletics and the White Sox are fifty points behind the Champs, and won't be in the race some time to come.

It Is a Pretty Serious Sort of Fun,
We Should Think

This newspaper recommends to the attention of President David R. Francis—or, failing action on his part, to those ordinarily entrusted with the suppression of crime—the following statements from a competent, able man:

This is incriminating in itself, as it shows that things were wrong. Now that they say it is "all right," I want to ask you: IS THE WORLD'S FAIR THE PLACE FOR AN EXPERIMENTAL STATION WHEN HUMAN LIFE IS AT STAKE?

Editor BOSTON AMERICAN:

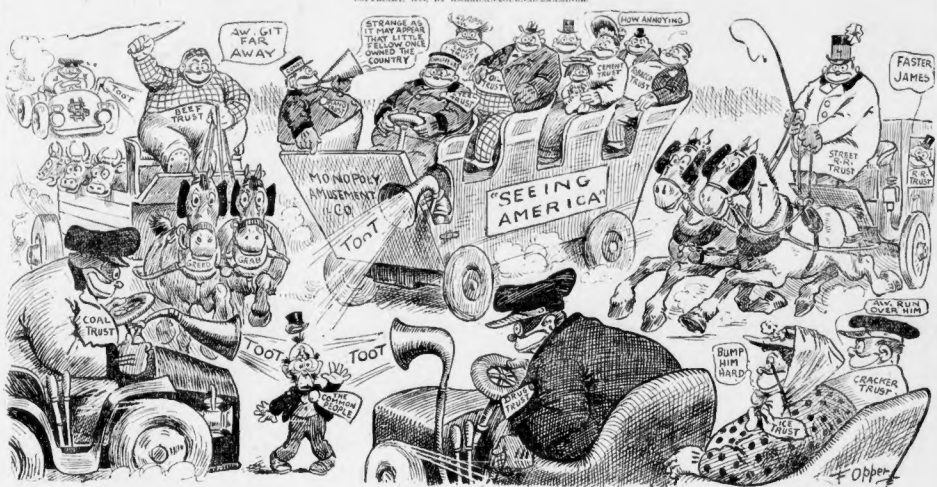

I saw on the editorial page of the BOSTON AMERICAN on Sunday, July 31, 1966, a copyrighted article entitled "You Thing That Never Left Him." Could I have the privilege of printing the name or extracts from it for free distribution to the BOSTON SUNDAY AMERICAN credit for same? Could the text be obtained in its original form, or in a shorter or shorter form.

As we have thought it quite good and would like some copies to distribute that might prove of some value.

Yours faithfully,
JOHN HUMPHREY.

It is regrettable that you have space in your otherwise estimable paper for the discussion whether a dog or any other animal has a soul. There is not a Christian church I believe, not the Catholic, to which I belong, anyhow, that does not teach that a human being only, has a soul, made in the resemblance of God, who is a Spirit. We have souls, for in that case, as souls go somewhere after death, God, human beings and animals, would be all mixed together in heaven.

It is very true to be able to write a scientific composition but when it comes to deal with theology, I believe, for it is sometimes better to be ignorant than to be learned.
